Model #LFWOOD2

The look of wood blinds with the performance of advanced composite materials.

KEY FEATURES:

- **Look and warmth of real wood with the performance of advanced composite materials and technology**
- **UV stabilized polymer cap and composite formula offer superior durability and strength**
- **Matching valance, bottomrail, wand and tassel**
- **One year warranty**

PRODUCT OVERVIEW

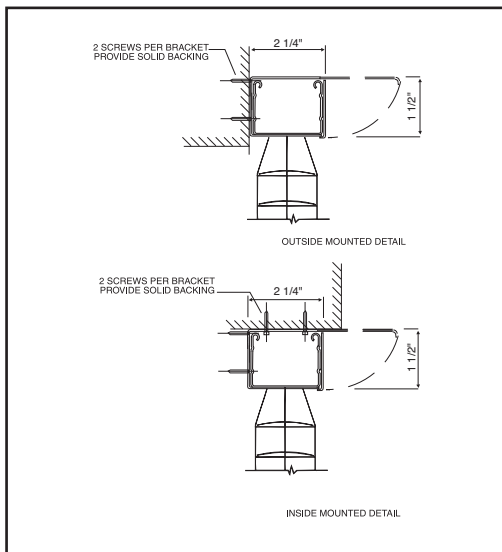

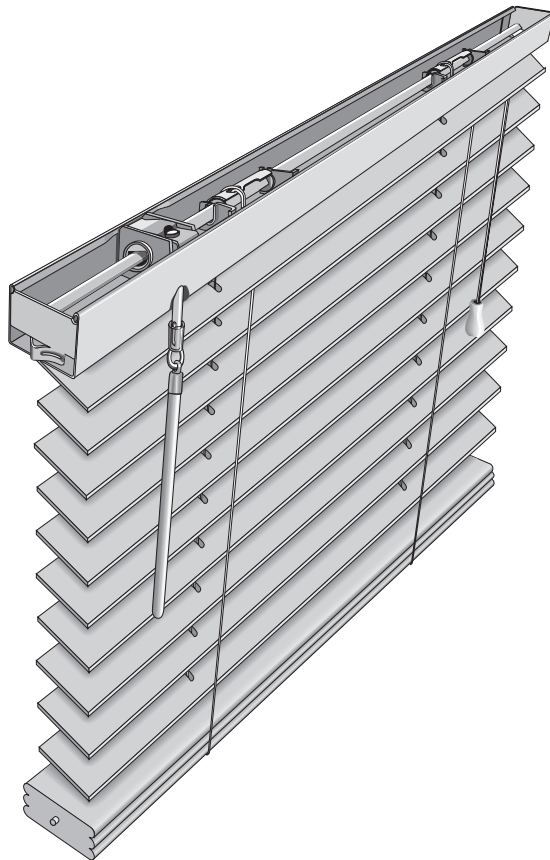

Levolor® Custom 2" NuWood Blinds provide the look and warmth of real wood blinds with the performance of advanced materials and technology. Levolor 2" NuWood blinds are easy to clean and maintain and provide excellent light control and privacy. Committed to both durability and aesthetics, the Levolor Custom 2" NuWood Blind combines the highest quality components with visibly attractive features to provide an overall superior product. NuWood is ideal for environments with high humidity, as they resist moisture and are easy to clean. The LightMaster™ privacy option edge provides tighter closure, darker rooms, and increased privacy. LightMaster privacy option is a wise investment for NuWood Blinds as slats can be removed for cleaning and replacement if accidental breakage occurs.

Levolor Custom 2" NuWood Blinds are made from a composite formula providing strength, durability, and a scratch resistant surface. Levolor Custom 2" NuWood Blinds are available in twelve finishes. The standard finish is a special hard polymer cap that is scratch resistant with a uniform texture and sheen that is easy to clean and maintain.

Levolor NuWood blinds use a proven headrail system made of roll-formed corrosion-resistant painted steel. The metal headrail and precision quality components provide superior support for the additional weight demands imposed by faux wood blinds. The precision molded, engineered thermoplastic drums and cradles insure accurate alignment of moving parts, smooth and maintenance-free operation.

Valance returns have a precise mitered joint secured with an easy-to-assemble return clip. The premium polymer composite slats, bottomrail, styled valance, are color coordinated with cords, ladders, wands and tassels to provide an elegant window covering.

PRODUCT SPECIFICATIONS

For more detailed specifications please reference Custom 2" NuWood Blind product Guide Specifications.

Part II – Products

A. Custom 2" NuWood Blind manufactured by Levolor®

B. One Year Warranty

C. Materials:

- ☐ **Headrail** shall be of .025" thick painted steel, "U" shaped, 1½" high x 2¼" wide. All hardware shall be enclosed in the metal headrail.
- ☐ **Tilt Wand** shall be of polymer, with a .38" diameter.
- ☐ **Cord Lock** shall be .032" thick galvanized steel and shall be crashproof.
- ☐ **Drum and Cradle** shall be provided for each ladder.
 - a. Drums:
Traditional rout hole drums are .020" thick galvanized steel. Cloth tape drums are injection molded thermoplastic.
 - b. Cradles are injection molded thermoplastic.
- ☐ **Installation Brackets** shall be of at least .040" thick painted steel with a rivet-hinged safety locking front cover to permit removal of headrail without lateral movement.
- ☐ **Ladders** (slat supports): Distance between 2" slats shall not exceed 44 mm (nominally 6.9 slats per vertical foot).
- ☐ **Slats** shall be of polymer composite formula with UV stabilized cap with a consistent texture and sheen selected from available Levolor Custom NuWood colors. Maximum slat length is 96". Standard 2" slats are nominally 2" wide x ½" high.
- ☐ **Bottomrail** shall be nominally 2" wide x ⅝" high and finished to coordinate with slats.
- ☐ **Options** shall include:
 - a. Cord Tilter
 - b. Twill Tapes
 - c. LightMaster™ privacy feature
