

LEVOLOR®

LouverDrape® Zirlon® Wheeled System

Versatile top quality vertical headrail system for commercial office applications.

KEY FEATURES:

- Self-lubricating wheeled system glides smoothly
- Carriers stack in 30% less space
- Vanes rotate 360 degrees
- Easy to clean windows since louvers move away from control end effortlessly
- Available in several vane styles
- Optional AutoWand feature
- Limited lifetime warranty

PRODUCT OVERVIEW

Exclusive to LouverDrape, the Zirlon Wheeled System was designed for durability and superior performance even when used by people unfamiliar with vertical blinds—such as in hospitals, schools and hotels.

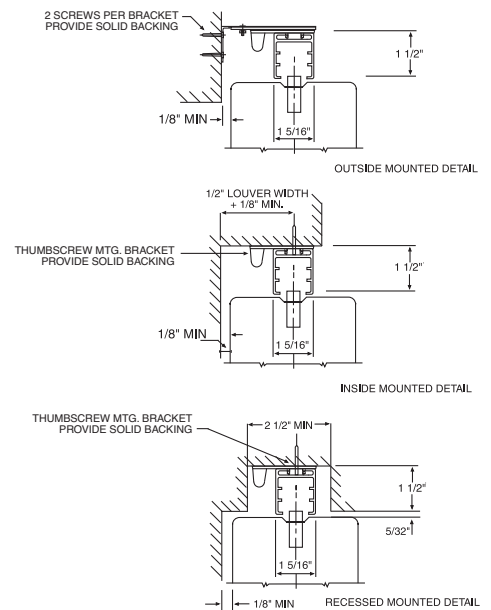

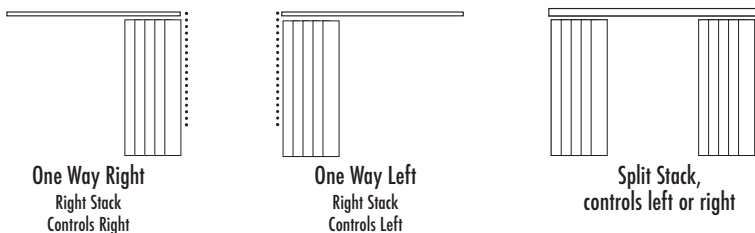

The Zirlon system features carriers that are only $\frac{5}{16}$ " wide instead of the standard $\frac{7}{16}$ ", which means that the blinds will stack in considerably less space when drawn. For design purposes, the smaller stacking advantage means that a smaller wall pocket is needed to contain the drawn blinds.

The Zirlon Wheeled Headrail System is compatible with LouverDrape's entire line of vinyl, vinyl with fabric insert, fabric vanes, embossed PVC and laminated.

The AutoWand feature eliminates dangling cords and chains, providing safe and smooth operation.

- One-control convenience - vanes are rotated and traversed with a wand
- Streamlined appearance
- Increases safety
- Can be ordered with One Way Left, One Way Right, or Split Stack with Left or Right controls
- Available in White (80001) and Ivory (80004)

Control and Stack Options

Note: Lift-out headrail shown in all diagrams.
