

CLEAR PREMIUM VINYL CURTAINS BY CUBE CARE

Cube Care's Premium Clear Vinyl Curtains include water-repellent, fire retardant, and fits to your curtain track system(s).

The COVID-19 pandemic has brought day-to-day life to a standstill. During such difficult times, the safety of medical staff becomes more important as they are on the frontline in tackling the disease. Despite aggressive safety measures and use of personal protection equipment, infections and deaths have been reported among healthcare professionals (HCPs). The closed environment of an isolation ward adds to this fear.

By continuing to use safety precautions, but to further reduce infection transmission, Cube Care manufactures high-quality transparent (clear) vinyl curtain, to use between the patient and the HCP. They can be used to surround the patient's bed, used to cover nurse stations, or divide hallways/doors entries/units. Also, recommended for outpatient departments, pharmacies, dispensaries, and shops.

They are inexpensive and easily available!

The transparency of the curtain allows visibility of the patient even from a distance, and it reduces the possibility of droplet transmission as it provides an additional layer of protection. Noninvasive examinations can take place through the curtain and curtain allows for easy communication for the patient and the doctor.

CURTAINS FEATURE(S)

- ✓ Cost-Effectiveness
- ✓ Noise Reduction
- ✓ Modifiable Separation – Curtains can be easily removed, rearranged and/or temporary set aside. Provide facility managers control over open work floors so rearrange equipment and processes to increase efficiency.
- ✓ Contamination Prevention – Essential in facility to prevent cross-contamination between different areas/units.
- ✓ Easy to Clean and Disinfect – Easy to clean and sterilize to be used over and over in sensitive, high movement environments.
- ✓ Gauge (thickness): 12 mil.
- ✓ Double-fold, built
- ✓ 1" Double-stitched bottom and side hems
- ✓ Rust-proof grommets spaced every 6"
- ✓ FR passed NFPA 701 Test Method 2
- ✓ Versatile Properties – Our clear vinyl will contract and grow with changing temperatures
- ✓ Add weighted chain at the bottom (upon request)
- ✓ Snaps on the sides (upon request)

YOUR OPTIONS

Widths as long as you need them. They can be overlapped to create a space division as your needs require or as a single unit. This modular system allows flexibility at a moment's notice
